I. Informational Item – Cortland Street Emergency Sanitary Sewer Repair Project – T. Michael Jessee

Mr. Jessee reminded the Board that, at the last month’s meeting, the Board approved a $140,000 budget for the emergency repair of the Cortland sanitary. He indicated that this is located behind the apartments along Washtenaw.

Mr. Jessee explained that Paymar completed the pipe bursting and that, after further investigation, it was discovered that the entire pipe did not require pipe bursting. He pointed out that it can be lined instead, which was on the relining contract that is currently underway.

Mr. Jessee also explained that he has spoken with the engineering manager, who anticipates a $60,000 decrease in the contract.

Larry J. Doe inquired as to whether the Ford Blvd. water main project can be tied in with this one. Mr. Jessee responded that there was difficulty with the specifications on this project as written regarding the pipe bursting. He acknowledged that there is a two month window to get the work done before the Authority interferes with the road commission’s work in the area. Mr. Jessee confirmed that the job is about a two week project and that moving in this direction will also save the Authority money.

J. Informational Item – Purchase of Sanitary Pump Station Systems – T. Michael Jessee

Daniels has been in contact with the financial firm that is dealing with Tuttle Hill Ventures LLC, which is the owner of the pump station equipment that YCUA has been considering purchasing. He indicated that Mr. Daniels has worked diligently with the financial institution and has been given the go ahead to purchase the equipment.

Mr. Jessee explained that Mr. Daniels has also reviewed the sales agreement that has been drafted and made some necessary changes. He pointed out that staff is ready to proceed but, because this is a tabled item from two months ago, it needs to be removed from the table at the January meeting when a more complete Board is present.

Mr. Daniels also explained that the agreement has been finalized and that the owner’s bank has confirmed there is no lien on the equipment and has approved the purchase. He further advised that the company is not in foreclosure as was previously thought. Mr. Daniels stated that the only

bank or the owner.
