## Sanitary Sewer Overflows

The Ypsilanti Community Utilities Authority (YCUA) sanitary sewer collection system has been experiencing heavy flows due to the unprecedented rainfall last night. Consequently, YCUA staff are investigating all reports of sewer backups and/or sanitary sewer overflows. YCUA staff are working diligently to follow up on these reports and to mitigate the impact on our customers. Please report any incidents of a sewer backup and/or sanitary sewer overflow to YCUA. YCUA staff can be reached 24 hours a day, at **734-484-4600**. Please select the "Service Center" option on the phone menu and a staff member will be available to assist with an incident.

Please be advised to stay away from any affected areas where sanitary sewage has been released. YCUA is working diligently and taking all necessary steps to mitigate any overflow. If feasible, YCUA kindly requests that customers minimize the usage of washing machines and dishwashers during heavy rainfall.
